01/2007 - 05/2016

- Worked at various blue collar jobs for the paychecks that covered all expenses during this process.
- Other than a scholarship, grants, and loans, no outside funding was available.

STRENGTHS

Strategic Methodology

Adept at creating alternative ways to proceed. Faced with a given scenario, I am able to spot the relevant patterns and issues.

Analytical Approach

Focus on reasons and causes and extrapolate all factors that may affect a situation

Ideation

I am fascinated by ideas and take pride in the ability to make connections between disparate phenomena.

ACHIEVEMENTS

Team Driver

When a CRM project fell over budget, I entered the project to not only increase team productivity by 20%, but implement stricter coding standards.

Self-Motivated

Coming from a foster home background, I had not only excelled in pre-education employment positions, but eventually had the honor of utilizing my own resources to obtain a university degree.

MY LIFE PHILOSOPHY

"Success is achieved by developing our strengths, not by eliminating our weaknesses."

Marilyn vos Savant
